

7. COMPLIANCE WITH BUILDING CODES

The basic sandwich-panel concept and approval for a unit already constructed in Jamaica has been given by the K.S.A.C., based on a Report entitled "Honeycomb Sandwich Panels for Low Cost Housing in Jamaica". The proposed panels have been approved by the relevant authorities since the late 1950's and major construction has been taking place in the U.S.A., Canada and over 50 other countries throughout the world.
